That's Right Bitch..... It's Hunting Season!

Hey avid hunters, outdoorsmen, and sports fans, it's **Bambi Bob**. You know what my species is - **Bambis**. There are millions of us that get popped, skinned, and mounted every hunting season.

We've made a deal, actually a historical truce, with Team Bambi™. They've decided to **hunt naked women**, instead of the original Bambi population (deer).

Guys would rather see **naked women** running around the woods, with their beautiful, voluptuous **"racks"** jiggling all over, versus a hairy, four-legged deer anyways, right?

Let's face it. For those of you that have a wife, girlfriend, significant other, even an ex-wife, or ex-girlfriend (you get the point) or some other **Bambi Bitch** that has done you wrong in the past, nagged you to death over the stupidest things, complained and whined that you didn't spend enough time with her, didn't take out the garbage, yada, yada, yada.....

Here's a question.

Wouldn't you just like to **'Busta Bambi'** sometime?

I mean, if you had a paintball gun, and she was **running for her hide, bare ass naked**, through the woods, and you **busted her in the ass** with a paintball, you would feel just a little bit of gratification, wouldn't you?

Ok. Maybe some of you *really wouldn't want to see* your wife or girlfriend running naked through the woods with their fat rolls wiggling all over. But, you get the point.

Just think, the **sting of a paintball** at 200 mph, splatting on her bare ass. **OUCH!** that leaves a nice little welt. Plus, she will feel that ass sting for a few days.

This would be a great way to "Domesticate" your Bambi.

Every time she's about to **open her big trap and start to bitch** at you about the dumbest things, she'll remember that bare-ass sting of a paintball.

What a great training technique!
